SPECIAL PRESENTATION/ “MUNICIPAL AGGREGATION – THE POWER OF CHOICE”

Mr. Chris Childress, Progressive Energy Group, a municipal aggregation broker, stated that recent changes in the Illinois legislature made municipal aggregation possible. Municipal aggregation allows residents to bind together to purchase electricity at a lower rate than ComEd. Nearly 300 communities are expected to have this referendum on the ballot for the March 20, 2012 election. Electric customers could save over $120 million a year on their electric costs or about $175 to $200 per household per year if this referendum is passed in their communities. The next opportunity for the City of Zion to put a referendum on the ballot is November 6, 2012. Zion is a community of 24,413 residents with 8,276 households with an average of 2.95 persons per household. With the historical average savings per house of $175, with an average usage of 10,000 kwh per household, a total annual savings for Zion residents could be $1,448,228.81. Mr. Childress highlighted some of the frequently asked questions listed in the handout. He invited the Council members to contact him with questions or to set up a meeting to discuss municipal aggregation in greater detail.
CITIZEN COMMENTS

Mayor Harrison stated that the City Council will not discuss any matters that are currently involved in pending litigation. He stated that citizen comments should be applicable to City business such as patching potholes, snow removal, or other services the City of Zion offers. Citizens are free to air their dissatisfaction, however, he requested that, before coming to the City Council, they discuss their concerns with department heads and try to come to a resolution of their issue so as not to blindside the department heads or Council members at a City Council meeting. Mayor Harrison also stated that a City Council meeting is not the appropriate venue for campaigning of any kind.

Clyde McElmore, 2815 Ezekiel, stated that he posted a sign in the City Hall parking lot earlier in the day. He had a discussion with the Police Chief regarding posting the political sign. Mr. McElmore cited the election code saying that a candidate has the right to post a political sign at a polling place on election day if it’s at least 100 feet from the doorway of the room where voting is taking place regardless of whether it is public or private property. Mr. McElmore was informed that that code section he cited referred to “on election day” not on a day of early voting and that he was not allowed to post a political sign on public property according to Zion ordinance. Mr. McElmore removed the sign. Clerk Burkemper stated that, upon discussing the matter with County Clerk Willard Helander, a separate election code section addresses early voting locations as opposed to polling place locations. A candidate may post a political sign at an early voting location during the entire early voting period, regardless of whether on public or private property, as long as it is posted beyond 100 feet of the doorway of the room where voting is taking place. Mr. McElmore was advised that he could post his sign on public property in the City Hall parking lot.

It is now in the best interest of the City that these transfers be deemed permanent transfers with no repayment obligation. Commissioner Shantal
Taylor asked the City Council to consider the sensitivity of the City’s financial outlook with reference to the Water Fund being a resource to rely on in cases of emergency. She stated that the City should be proactive and stick to the original plan to repay the Water Fund and that the upcoming budget talks should include repayment of the Water Fund. She stated these funds may be needed for repairs to the aging system. Mayor Harrison stated that the need to use these funds was well known. He stated that some of the funds have been repaid and the fund has recouped nicely. He stated that the City will be looking at severe budget cuts in the upcoming year and the City has no means to repay this fund.

It was moved by Commissioner DeTienne, seconded by Commissioner Flammini that a Resolution (12-R-6) be passed modifying transfers from the Water Fund to the General Fund, in the amounts of $3,200,000 and $1,764,000, by deleting any and all repayment obligations. It was moved by Commissioner Flammini, seconded by Commissioner Shantal Taylor that an Ordinance (12-O-20) be passed amending Ordinance 12-O-18, which amended Section 74-77, by replacing all references to $8.00 with “at a cost to be determined by the Finance Department”. CTCA is requesting an extension of the lease for two years to allow them time to complete renovations of the space that will permanently house the scanner. Scott Jones, CTCA Chief Operating Officer, stated that renovations are underway and construction should take approximately one year after all approvals are received. CTCA would prefer entering into a two-year lease should construction completion extend beyond one year. Commissioner Shantal Taylor asked Mr. Jones when the hospital intends to build a parking garage. She stated that she has concerns for pedestrians in the area and residents and business owners have expressed their concerns to her regarding the issue of parking.
