RENTAL INSPECTION CERTIFICATION PROGRAM

Mayor Hill presented his observations, based on citizen comments during past Council meetings and the landlord meeting held on October 22, 2015, regarding rental inspection certification program concerns. He stated that he has heard concerns regarding:

1) The impact the program will have on large multi-family property landlords versus single family property landlords
2) The cost of rental inspections at $100 is too high
3) The inspection criteria – what will be inspected. Landlords fear inspections will go beyond life safety issues and the inspectors will “nitpick”.
4) The time frame for making repairs especially for high cost repair items
5) Landlords noted the rental inspection ordinance was enacted to upgrade rental units. They asked about owner occupied home inspections. Many owner occupied properties need to be brought up to code at a higher standard.

Mayor Hill stated that he was troubled by some observations he made at the landlord meeting:

1) He was under the impression that landlords were trying to provide quality units like their own homes, but that is not the case.
2) Landlords are looking at the program from the perspective of their own circumstances and how the program affects them, not how it affects the entire City of Zion.
3) The City sent 1,200 letters inviting landlords to the meeting and only 250 attended. Most landlords that attended are the good landlords. He expressed concern regarding the 950 landlords who did not attend the meeting.

Mayor Hill stated that the Illinois Association of Realtors submitted a list of questions and suggested changes to the rental inspection certification program ordinance. The questions are being addressed in a memo prepared by the City Attorney.
Commissioner McDowell stated that the rental inspection ordinance passed in July 2015 and the fee structure ordinance recently passed are not set in stone. He stated that public input was needed and the Council is taking the input received seriously. He posed the following question: If a duplex owner lives in one side of the building and he rents the other side, must both sides be inspected or just the rental side? Director Ianson stated that the owner occupied unit is not exempted in the ordinance. It was the consensus of the Council that the owner occupied portion would not be subject to inspection, only the rental unit. Commissioner McDowell stated that Zion has a lot of conscientious landlords and they are worried about smaller issues. Commissioner McKinney stated that the inspections will concentrate on life safety issues such as electrical, plumbing, water, not nitpicking issues like carpet stains and small wall cracks. He stated that landlords need assurance that they will not be subjected to nitpicking. Director Ianson stated that the inspection criteria list is based on the property maintenance ordinance and each property will be addressed on a case by case basis. He stated that common sense must prevail when performing the inspections and identifying the necessary repairs. Commissioner McDowell stated that it may be necessary to differentiate between multi-family unit complexes and single family home rentals in the inspection criteria. He stated that perhaps two sets of criteria are necessary. He stated that perhaps the fee structure should be revised with consideration being given to an incentive for good landlords whose properties pass inspection. He stated that, if the unit passes in Year 1 of the program, perhaps it would be an incentive to allow two years to pass before the next inspection. Mayor Hill stated that he and Director Ianson revised the program expenses. He said the expenses were amortized, and to reach the “break even” point, the per unit inspection fee could be reduced from $100 to $66. Mayor Hill noted that the cost of the program will increase each year. He noted that there will be legal fees incurred when the City has to fight program offenders. Commissioner McKinney stated that the City Council is listening during conversations regarding concerns/issues with the program and alterations will be contemplated. Commissioner McDowell stated that many landlords have cash flow problems. He asked how long landlords will have to make repairs. Director Ianson stated that the ordinance states landlords would have 60 days to complete repairs. Mayor Hill stated that if repairs are a life safety issue, the City doesn’t want residents to live in an unsafe environment and therefore, perhaps the 60 days should be reduced to 72 hours for life safety repairs. He stated that otherwise, the repair completion period could be extended to 90 or 120 days. Chief Lewis stated that the Fire/Rescue Department inspects apartments and businesses annually and they allow 30 days for the correction of violations. He stated that the Department works with the landlords and may extend the period until the problem has been corrected. He stated that fines are imposed after the first notice. Commissioner McDowell asked if it would be possible to cross-train the inspectors and combine the Fire/Rescue and Building Department inspections. Chief Lewis stated that the inspectors work from a check list and it would be possible to cross train. It was noted that such a combination would generate union issues. Commissioner McDowell suggested that the City approach other Lake County entities regarding consolidation of inspections. He stated that perhaps the City of Zion could perform the inspections and be reimbursed by Lake County. Commissioner McDowell stated that people are not questioning the need for the inspection program. He stated people believe Zion has a housing stock problem and the program is needed. Commissioner McDowell stated that the City’s high tax rate is frequently “tacked on” to discussions he has with others. Others are asking how they can pay for both high taxes and repair bills. It was noted that the rental inspection program will not lower taxes immediately, however, it will over time. Commissioner McDowell stated that as the program succeeds and the housing stock improves, property values will increase, thus making more funds available to the taxing bodies. He stated that at this point, the City Council must keep the tax levy down.

Mayor Hill stated that the amendments to the rental inspection program will be presented at the November 17, 2015 City Council meeting for the Council’s consideration and/or approval.
