**SPECIAL PRESENTATION**

Jacob Lenell and Jordan Boehm, CliftonLarsonAllen LLP, were present to present the 2016 Audit Results to the City Council. Mr. Lenell stated that the audit was unmodified or “clean” and was free of material misstatement. He reviewed the financial highlights. He stated that the General Fund generated over a $1 million deficit with a year end fund balance of $3 million. He stated that the City expected a reduction of the fund balance, and budgeted accordingly, but it was not sustainable. Mr. Lenell reviewed the deficit fund balances. He stated that the deficits have accumulated over the years and the City should work to reduce the deficits over the next five years. He stated that the City should plan to implement changes and adjust levy policy to continue to reduce the deficits. Mr. Lenell stated that the total unfunded liability of the IMRF, Police, and Fire pension funds totaled $63,405,545 as of 2016. He stated that even though the amount is substantial, it is not uncommon for stand-alone single pension funds. Director Knabel stated that, in three years, the City will not be able to levy anything in the General Fund as pension levies increase by $250,000 per year. Mr. Lenell reviewed the qualitative aspects of accounting practices. He stated that no account cleanup was necessary and that the City’s practices were consistent throughout the year. Mayor Hill stated that the audit is very late as completions after October are considered to be late. Mr. Lenell stated that they rely on the Police and Fire audits as provided by other audit firms and that they were late. Mayor Hill asked if those audits could be expedited in the future. Mr. Lenell stated that the Management Letter provides only best practice recommendations and that the letter revealed no significant deficiencies.

It was moved by Commissioner McDowell, seconded by Commissioner McKinney to receive and place on file the City of Zion Audit – Fiscal Year May 1, 2015 through April 30, 2016 as presented by CliftonLarsonAllen LLP. **CITIZEN COMMENTS**

W. C. Bremner, Zion, read from an article in the March 3, 2017 edition of the Great Lakes Bulletin regarding Navy Junior ROTC drill competitions. The article recognized Zion Benton Township High School student Luis Acosta. Mr. Bremner presented the article to Mayor Hill.
Janet Jones, Zion, stated that Midwestern Regional Medical Center took the brunt of the City taxes as the result of revenue from new construction. She asked what would happen if the hospital moved from being proprietary to being not-for-profit. She stated that taxing the hospital more and residents less doesn’t solve the problem. She stated that the City was to meet with all the taxing bodies to address the school levies. Ms. Jones stated that she hears nothing of school district unification. She asked the City Council why they were shocked now by the amount of the pension unfunded liability. She stated that the City Council was not paying attention to levy amounts and how much Police and Fire personnel are paying into their own pensions. Director Knabel stated that Police and Fire personnel contribute between 9% and 10% to their own pensions. Mayor Hill stated that the City has paid back the pension funds that were levied but not deposited in 2011. He stated that he was not surprised by the unfunded liability totals but he is surprised by the increase from $44 million to $63 million. Mayor Hill stated that the City has met with other taxing bodies but it has no control over the school board. He encouraged residents to run for the school board in order to effect change. Director Knabel stated that, with regard to the hospital’s new construction, the tax rate is universally applied and that no higher tax was imposed on the hospital. He stated that the new construction is coming on line because it was added to the tax rolls, but the hospital pays the same tax rate as everyone else. Ms. Jones stated that the hospital will only take so much.

Tracy Johnson, Zion, stated that more transparency is needed in the City’s hiring process. He stated that he submitted an employment application for rental inspector in October of 2016 and was told that it was submitted after the deadline date. He stated that the City has an unfair hiring practice as applicants are not notified that their applications have been received or that the job has been filled. Mayor Hill stated that this matter had been previously reviewed, and that the “Received” stamp on the application was after the position had closed. Commissioner Frierson stated that a procedure could be put in place whereby an applicant would receive a receipt upon submittal of an employment application and either a denial or acceptance letter when the position is filled.

Clyde McLemore, Zion, stated that one of the Community of Character words is “respect”. He stated that he doesn’t like Mayor Hill and Mayor Hill doesn’t like him, however, he respects the position of Mayor. He stated that Mayor Hill was totally disrespectful to a woman at the candidate forum. He stated that he understands that Mayor Hill does not want a woman to run for this position (Commissioner) on the City Council and that he talked down to a woman. Mr. McLemore stated that Mayor Hill is a bully and he knows this because he tried to bully him and he is a bully too. He stated “I love our queens -- black, white or whatever -- women smell good, they cook for us and . . .”. He stated that it hurts him when a man hurts a woman. He stated that Mayor Hill totally disrespected a woman and is less than a man.

He stated that the five-year agreement included a balloon payment in 2020. He stated that the City is pursuing refinancing to avoid the balloon payment. Director Knabel stated that no action was required on this item at this time.

ORDINANCE/COMMERCIAL SIGN AND FACADE IMPROVEMENT PROGRAM

Director Knabel stated that the City has established a Commercial Sign and Façade Improvement Program to provide financial assistance to trigger coordinated improvements to incrementally contribute to a substantially improved retail and business district environment. He stated that the program provides available grant funds to property and business owners to be matched by their equal or greater investment of private funds for the purpose of restoring or renovating commercial facades which can be viewed from the public right-of-way and replacing deteriorated, poor quality signs and awnings that conform to the City’s current sign ordinance. Director Knabel stated that Lake County has approved the Commercial Sign and Façade Improvement Program and it meets the criteria. He stated that the program will be citywide but it has not been marketed yet pending program approval. He
stated that the program is designed for for-profit businesses only, and it does include tenants with landlord approval. He stated that the program requires a 50% match by the tenant or landlord. Commissioner Frierson asked how uniformity with signage will be assured. Director Ianson stated that signs are regulated by the City’s sign ordinance and zoning. Mayor Hill stated that he was concerned about the complicated administration and strict requirements of the program. He recommended donating 2115 Ezekiel, 2621 Gilboa and 3108 Elizabeth to Youth Conservation Corps (YCC) who intends to rehab the properties and then sell them to low/moderate income home buyers with a deed restriction that they remain owner-occupied for a period of ten to fifteen years. Director Ianson stated that YCC provides job training and educational opportunities for low income youth in need of a high school diploma. He stated that on the worksite, youth learn construction skills while rehabilitating affordable housing for low income or homeless families in their own neighborhoods. Commissioner Frierson asked if Zion youth participate in the program. Director Ianson stated that approximately one third of the youth are from Zion. Mayor Hill stated that he would prefer to see a definite time stated on the deed restriction rather than ten to fifteen years, perhaps twenty years. Commissioner McDowell asked if there was a completion date for the rehabilitations, and a YCC representative stated that there was not as plans have not been prepared to date. The representative stated that YCC completes a unit about every six months, with the more extensive projects taking up to eight months.

It was moved by Commissioner Frierson, seconded by Commissioner McKinney that an Ordinance (17-O-16) be passed conveying 2115 Ezekiel, 2621 Gilboa and 3108 Elizabeth to Youth Conservation Corps (YCC) with a deed restriction that the properties remain owner-occupied for a period of ten to fifteen years. He stated that the vehicle was assigned to ESDA for use as needed during large incidents or events. He stated that in the past eight years, the bus has only been used once or twice a year. Chief Lewis stated that it is not cost effective for the City to maintain and insure the vehicle. He stated that due to its age, mileage (229,377) and the lack of need for such a vehicle in the City’s fleet, it was suggested that the vehicle be declared surplus and donated to Wesley Free Methodist Church in Waukegan for use by the youth program.

It was moved by Commissioner McDowell, seconded by Commissioner Frierson that an Ordinance (17-O-20) be passed declaring a 2000 Ford E450 Diesel Bus, VIN 1FDWE45F8YHB65237 surplus property and donating it to Wesley Free Methodist Church in Waukegan for use by the youth program. She stated that, at that time, the City Council determined that it was in the best interest of the City to engage a consultant to assist the City in implementing the program and the Northern Illinois Municipal Electric Collaborative (NIMEC) and the City entered into an agreement for electric aggregation consulting services. Clerk Burkemper stated that NIMEC successfully guided the City through the initial process and the program renewal in 2014. She stated that the agreement with NIMEC is now expired. She stated that the City’s electric aggregation program is due for renewal in July of this year, and because the renewal process takes approximately 75 days, the City will need to receive a renewal bid in order to make a decision on an electric supplier before mid-April. She stated that NIMEC would prepare a Request for Proposal, send it to suppliers, and then present the bid results to the City Council. She stated that, if the bid is accepted, an ordinance authorizing renewal of the aggregation program for electrical load would be passed by the Council and the new electric supplier would begin serving the City. Clerk Burkemper stated that the supplier would pay NIMEC a fee, but if all the bids are rejected, then NIMEC is not paid. She stated that the City never pays any fees to NIMEC.

Commissioner Frierson asked if any marketing had been done to encourage employees to move to the high deductible plan. There are no changes with the dental and life insurance renewals. Director Knabel stated that the Fire/Rescue Department investigated the
Department joining an insurance pool but the cost increase was significant compared to the self-insured option, and therefore, the City would not come out ahead.

Director Knabel stated that as their fee for services, the City will pay 45% of all revenues found or recovered as the result of their findings for a period of 24 months.
