Director Knabel recommended that Section 5 (A) (2) of the agreement be amended adding that payment of the TIF incentive shall be provided by the City to the owner within 14 days through a series of reimbursements. Mayor Hill asked if there were other eligible expenses applied for that were not approved by the TIF Review Board. Director Knabel stated that there were other expenses applied for but the Board felt the items approved were at a level compatible with maintenance of an existing structure. Mr. Ed Rich, TDWR, LLC, stated that the franchise will also provide funding for the improvements. He stated that, even though the property suffered a $500,000 decrease in value, he is in Zion to stay. He stated that Culver’s corporation is mandating the work however he supports the improvements as they make the facility more ADA compliant and he wants to do the right thing. He stated that he would appreciate financial assistance with the parking lot lights. Commissioner McDowell asked why the TIF Review Board selected the items they did. Director Knabel stated that the Council can add items back in but only these items were recommended by the TIF Review Board.

He stated that there should be a policy discussion regarding for what purposes CODERED would be used. Commissioner McDowell stated that for the amount the City used CODERED, he did not see that it was worth the expense. He stated that the need to disseminate information still exists and he recommended checking the cost of robo calling. He stated that the CUBZ Commission is discussing communication with residents. Director Colangelo stated that boil order notices are hand delivered however the main break noted by Mr. Bremner did not warrant a CODERED notification. He stated that CODERED would only be used if there was a major water-related emergency which is rare. He stated that if the affected area is too widespread to hand deliver notices to residents, the City notifies television and radio stations and newspapers who release the information to the public. Commissioner Fischer asked, since CODERED is an “opt in” system, how many residents signed up to receive system notifications. He stated that robo calls could not be targeted like an “opt in” system can. Mayor Hill asked staff to determine how many residents were receiving CODERED calls.
