DEPARTMENTAL COMMENTARY

Director Ianson responded to the question from resident Jim Koepl regarding the building at 928 Shiloh. He has not had time to return his call but will look into it and get him a status update. Mayor McKinney stated that when he was Building Commissioner they had knowledge that the building was being re-done and there was a fire and the person that owned the building did not have insurance at the time. Since then he has been in the process of salvaging the building getting it back up to being in livable conditions. He noted that although it doesn't look like it, it is a work in progress.

Director Roberts gave an update on the current TIF project. The project is about 95% complete. The roads have been resurfaced or reconstructed. They have installed over 3,000 linear feet of new 8-inch water main and are currently working on landscaping and cleaning it up. Yale Court is the new road which connects in front of Popeye's. The City's portion is complete but Popeye's needs to do the tie in from Sheridan to the new road which will become the entrance off of Sheridan Road. Still to be completed is the 2500 feet of the existing sanitary line which will be lined. Mayor McKinney stated along with the development of that area they attended the ICSC Convention they talked to businesses about coming to Zion because the property is being prepared there are a lot of companies that are now interested in moving next to Popeye's. Additionally, they are able to better promote the ball field property for development due to the addition of the Starbucks opening up there.

Chief Stried gave a recap of the activities and incidents of the July 4th week. He stated they did have a few incidents due to fireworks; one involving a garage fire started by debris and one area of brush debris. Luckily there were no major injuries here but there were multiple throughout the County. They are trying to crackdown a little bit more than in the past but there was still a lot going on. He asked visitors and residents to use extra caution and obey the City ordinance on fireworks. Mayor McKinney stated fireworks are illegal in Illinois especially the commercial grade and is a Federal crime to bring fireworks across the border. He encouraged residents to call the non-emergency police number to report addresses that are setting off fireworks. He noted that the ordinance has been in effect for two years and residents no longer will receive warnings this year and will receive immediate fines. They are trying to keep residents safe while being respectful of neighbors, seniors, disabled Vets and pets.

Chief Barden commented on the following:

- At every Community meeting they have discussed the concern regarding fireworks. It was highly publicized that they would be issuing citations for the illegal fireworks.
- He noted that gun violence is a big issue in all communities and is not unique to Zion. Officers in the Street Crimes Unit and TFO recently took down an individual selling “switches” they convert a semi-automatic hand gun into an automatic hand gun capable of fully automatic fire. This person was a violent offender of other violent crimes.
- He noted that there was a fire at the North Shore Sanitary bio-solids recycling plant and had to close a road. The information was put out on the Blackboard notification system. He encouraged residents to sign up for Blackboard so that they may receive important information. Messages can be received by email, text or phone. It was also noted that if there have been changes to resident’s information, they should update their Blackboard information.

Director Conway thanked the Council for approving a new phone system as it much better for navigation of information.

Commissioner McDowell noted that a re-dedication of Esther’s Well was held on July 12th. He thanked all those who attended. The historical landmark was in a dilapidated state for many years. He commented on the how great it was to see so many people coming together to see the restoration take place. The Zion Historical Society spearheaded the project in cooperation with the Park District and worked together to get the spaced restored. It’s now a beautiful garden and fountain. He encouraged the public to stop by and see the restored well. Mayor McKinney stated even with the pouring down rain, over 200 people came to see it happen.

Commissioner Frierson commented on the following:

- He thanked Director Conway for her feedback some of decisions the Council makes impacts the staff.
- He thanked Chief Barden for mentioning the bust of the individual with the switches as they are quite dangerous.
- He invited the public to attend the Fore R Youth Golf Outing on August 11th sponsored by the Coalition for Healthy Communities. The event supports the youth programming at the High School and the Zion Benton Leadership Academy. Individuals can sign up on the Shepherd Crook’s website.
- They have been conducting listening sessions throughout the summer which is a supplement to what has been happening at the High School. They have been going out to residents and meeting them and getting feedback as part of the survey for the Wellness Study. They hope to get more resources or additional grant funding for services that have been cut throughout the City.

Commissioner Holmes stated that she sees residents attending City Council meetings but notices that the Township meetings are not quite as well attended. She encouraged residents to come to a Township meeting to see what is going on. Zion Township helps seniors and provides General Assistance. They may also be able to help with rent, and can be contacted for more information. Another resource for residents is 211 through the United Way. They can also help with issues such as mental health.

Mayor McKinney noted that September 5th garbage services will change. The garbage must be moved to the front of the house. Also changing is the recycling to twice a-month. Larger carts are being offered at no charge for a period of time. Information with fact sheets will be going out to the residents. Waste Management has changed to automatic trucks and they cannot go in the alleys due to the utility lines. He understands people are concerned about

the possibility of debris in the streets. City ordinance states the cans must be moved within 24 hours. He also noted that all garbage companies are moving to front street pick-up. Additionally, he stated that residents want to report any issues in their neighborhood, they can talk to the PD on an anonymous basis. They can call the non-emergency number 847-872-8000. He reminded residents that they should all watch their neighborhoods to keep them safe.
